Job Description:

We are seeking a talented and motivated Mobile Application Developer with at least one year of professional experience to join our dynamic team. As a Mobile Application Developer, you will be responsible for designing, developing, and maintaining high-quality mobile applications for both Android and iOS platforms. You will work closely with our product management and design teams to translate requirements into functional and engaging mobile experiences.

Responsibilities:

1. Develop innovative mobile applications for Android and iOS platforms.
2. Collaborate with cross-functional teams to define, design, and ship new features.
3. Write clean, maintainable, and efficient code.
4. Ensure the performance, quality, and responsiveness of applications.
5. Identify and correct bottlenecks and fix bugs.
6. Continuously discover, evaluate, and implement new technologies to maximize development efficiency.
7. Stay up-to-date with emerging mobile technologies and industry trends.
8. Conduct code reviews and provide constructive feedback to team members.
9. Participate in brainstorming sessions to contribute ideas for product improvements and features.
10. Optimize application performance and ensure scalability.
11. Knowledge of Rest API, Kotlin Coroutine, MVVM Architecture, Sqlite Database.
12. Android TV development optional

Requirements:

1. Bachelor's degree in Computer Science, Engineering, or a related field.
2. Minimum of one year of professional experience in mobile application development.
3. Proficiency in one or more programming languages such as Java, Kotlin, Swift, or Objective-C.
4. Experience with Android SDK, iOS SDK, and popular third-party libraries.
5. Solid understanding of mobile UI/UX principles and best practices.
6. Familiarity with RESTful APIs and web services integration.
7. Knowledge of version control systems such as Git.
8. Strong problem-solving skills and attention to detail.
9. Excellent communication and teamwork skills.
10. Ability to work in a fast-paced environment and meet tight deadlines.

Preferred Qualifications:

1. Experience with cross-platform mobile development frameworks such as React Native or Flutter.
2. Knowledge of Agile development methodologies.
3. Experience with automated testing frameworks for mobile applications.
4. Published one or more apps on Google Play or the App Store.
5. Familiarity with cloud services such as AWS or Firebase.
